Charlotte, N. C. 28210

Gentlemen:

It is likely that we may be purchasing some items from you which contain asbestos, and that they are being used by our workers who could be unaware of the presence of this material.

Therefore, I request that any component you supply which contains asbestos be identified by a label, tag or marking which can remain with that component to the point of use. This would minimize the potential hazard resulting from inadvertent mishandling of the product.

If you cannot comply with this requirement, we ask that you contact us immediately.

Sincerely,

James F. McMullen

James F. McMullen
