To improve our communications relating to the status of our PCB-PCT Action Plan, I propose to issue at frequent intervals a status report.

I will need your contributions from each of your areas of concern under the following headings.

ACTION	ASSIGNED TO:	TARGET DATE	ACTUAL DATE	REMARKS

"Action" lists should be submitted for each of the following groups:

1. Dielectric, Process and Heat Transfer Fluids
2. Industrial Fluids
3. Plasticizers

Each of these groups should prepare separate lists for:

1. U. S. Domestic
2. U. S. Export
3. MMK
4. Monsanto Europe

I would like to publish the first report before Friday, January 28, I will therefore need your list by Wednesday, January 26.
