

Captain Campbell of Denver

scores 1146x1200 with revolver

LOOK at the scores in the panel at the right. scores that cover an entire year of competitive revolver shooting in the monthly Efficiency Shoots of the Denver Police Department scores that show an exceptionally high order of consistency for the shooter—AND for the ammunition he used.

Captain Frank Campbell used U. S. 38 S & W Special Mid-Range Sharp Shoulder Cartridges in establishing these remarkable scores. No flash in the pan shooting here. No remarkable SINGLE performance. But a SERIES of good scores ranging from a 92 to a possible. Only consistently good shooting plus consistently good ammunition could do it.

CAPTAIN Frank Campbell of the Denver (Colorado) Police Department and the type of special police practice target upon which his year's score of 1146x1200 was made. This target is for use at 50 feet, having approximately the same appearance and scoring value as the Standard American 50 yard pistol target as used at 25 yards for police firing. All of Captain Campbell's scores were made at 20 yards.

Captain Campbell's Scores
