SUBJECT: TOXICITY STUDIES WITH PCB IN PRIMATES

REFERENCE:

cc: Messrs.
R. E. Beal
E. H. Harbison, Jr.
G. Roush, Jr.
W. W. Withers

TO: Mr. J. C. Weber

After discussing the subject of toxicity studies with PCB in primates with Dr. George Roush on October 14, I support his recommendation that we proceed with the protocol as outlined in Paul Wright's study on this subject with Litton Bionetics. The cost estimated at the time was $138,500.

I have discussed with MIC Law and they fully support this recommendation.

By copy of this memo, I am asking that Roger Beal make the necessary 1977 Budget allowance for this expense.
