June 19, 1972

Plant Manager
Celanese Corporation
1901 Clarkwood Road
Corpus Christi, Texas 78408

Dear Customer:

We wish to inform you that we will not offer Therminol® 77 heat transfer fluid after June 30, 1972. Therminol 77 was manufactured from a by-product which is no longer available to us. Accordingly, we cannot embark on another production run and expect that our inventory will be depleted by June 30, 1972.

For your convenience, we list the purchasing pattern of Therminol 77 by plant location for your company over the past five years.

	Corpus Christi, Tex.	Summit, N.J.
1968	-	-
1969	-	-
1970	-	1000
1971	50	1260
1972 YTD	-	-

For your information, Monsanto's heat transfer fluid line now consists of:

	Suggested Maximum Operating Temperature
Therminol 55	575°F
Therminol 66	650
Therminol 88	800

If we may be of assistance to you, please call our heat transfer specialists at (314) 694-2514.

Yours sincerely,

Cumming Paton
Product Manager, Fluids

Please note:
This letter was addressed to the plant manager at each of these locations.
