PLAINTIFF'S EXHIBIT

USG-860

19% Heavier

than Conventional Asphalt Shingles

EXTRA BEAUTY

The deep shadow lines and rugged charm of USG Giant 3-in-1 Shingles will give your home the architectural distinction ordinarily provided only by the most expensive roofs. Here's outstanding roof beauty for any home, old or new—at the modest cost of the asphalt strip shingle!

EXTRA WEAR

The extra weight of USG Giant 3-in-1 Shingles means *extra wear* . . . added years of freedom from roof worries. Because these rugged shingles contain almost one-fifth more material than conventional asphalt shingles, they're bound to last longer!

EXTRA PROTECTION

Because USG Giant 3-in-1 Shingles are 19% heavier than conventional asphalt shingles, they actually give you *more* roof! There's practically one-fifth more asphalt, roofing felt and ceramic coating material *in every shingle* . . . and it all means extra protection for your home.

TWO TYPES . . . MANY COLORS

There's a wide choice of blends and solid colors to choose from. Look at the samples and select the thick butt design blend or the straight strip solid color that suits your home . . . TODAY!
