REQUEST TO MONSANTO COMPANY
FOR SAMPLE QUANTITY OF PRODUCT
CONTAINING POLYCHLORINATED BIPHENYL ("PCB")

1. Name and address of organization making request:
Biology Department, Youngstown State University
410 Wick Avenue
Youngstown, Ohio 44555

2. PCB product requested: Aroclor 1242

3. Quantity requested: 8 oz.

4. Reason for request: The sample will be required for observations of the effects of PCBs on living organisms.

5. Use to which sample of PCB-containing product will be put:
Portions of the PCB-containing product will be administered to fish over a period of time and under controlled conditions in order to observe progressive histological changes.

6. Disposition to be made of any unused portion of sample:
Any unused portion of the sample will either be returned to Monsanto or destroyed according to the instructions provided with the sample.

MONS 096159

7. Names and brief description of educational background and job responsibility of person(s) who will be working with sample:

Name: Joseph M. Duda

Education: BS in Biology, currently working on completion of MS in Biology

Job: principal investigator in PCB study for Masters thesis under the direction of Dr. John J. Yemma, Ph.D., Cytochemistry

The undersigned organization represents that: the foregoing statements are true; it understands that if Monsanto elects to supply the requested sample of a PCB-containing product, Monsanto does so in reliance on the truth and accuracy of the foregoing statements; the person(s) designated by the undersigned organization who will be working with the sample is (are) aware that PCBs have been identified as a potential hazard to the environment and that regulations concerning their use or disposition are contemplated or may exist; that the label accompanying any sample will be read and cautions and instructions thereon will be observed; and that care is required in the disposition of PCB-containing products so as to avoid any adverse effect on human health and the environment.
