November 17, 1971

Mr. David Fausel
1060 A Alderbrook Way
Sacramento, California 95825

Dear Mr. Fausel:

In reply to your letter requesting information about PCB, I am enclosing two articles which I believe put the PCB subject in proper perspective. They will help answer some of your questions about the importance of PCB to industry and some production changes we have implemented.

You have probably read newspaper articles, subsequent to a government press conference in late September, which have helped clarify what some headlines have called "health hazards."

I would also suggest that you write to the Center for Political Research for their publication titled "Federal Policy on PCB Contamination of the Food Chain."

Sincerely,

Edward V. John
Director of Public Relations
