Philadelphia, Pennsylvania 19104

Dear Dr. DuBois:

We are in the early stages of developing a pulmonary function testing program in the Du Pont Company and are most interested in having a meaningful and useful one. A discussion with you at this time regarding such things as best equipment for our needs, tests to be performed, frequency of testing, and so forth would be most helpful.

I should be grateful if you could give me a date sometime after the first of the year when I could meet with you to discuss these and other questions related to a pulmonary function testing program. My telephone number is area code 302, 366-3575.

Thank you for your time and effort in this matter.

Very truly yours,
