Dear Dr. Kelly: Re: Aroclor Studies

If available, I would appreciate a copy of the status report on the toxicity of the Aroclors. As you can appreciate there has been considerable interest here as elsewhere on the significance of PCB's in our environment. Are you aware of any experimental studies of the metabolic fat of these in man or animals?

Sincerely,

for E. Mastromatteo, M.D.,
Director,
Environmental Health Services Branch.
