Subject: AnimalhealthEurope - statement on the Essential Use Concept
Attachments: AnimalhealthEurope - Essential use statement - Nov 2022 - Final.docx

Dear DG Grow, DG Envi and DG Santé representatives,

I would like to share with you AnimalhealthEurope's statement on Essential use.

More specifically, we have reviewed the presentation on the "essential use concept" written by WSP and would like to take the opportunity to provide input to the ongoing debate.

Although AnimalhealthEurope is pleased to see that animal health has now also been taken into account, we are disappointed with the still disproportionately minor consideration given to animal health and explain why the WSP proposal fails to adequately take into account the One Health impacts.

AnimalhealthEurope represents manufacturers of animal health products, which include vaccines, veterinary medicines and diagnostics. Our membership covers 90% of the European market for animal health products.

Happy to discuss this further should you have any questions regarding our statement.

Best regards.

AnimalhealthEurope a.i.s.b.l.
Avenue de Tervueren 168, box 8
