Antioch, CA 94509

Dear Mr. Smith:

With the current interest about asbestos and the government regulations, the Johns-Manville Asbestos Fibre Division is sponsoring a meeting for users of asbestos to help clarify the subject. For this meeting, we will have speakers from Johns-Manville to discuss asbestos and health, asbestos handling methods, and current O.S.H.A. and E.P.A. regulations. After these speakers have covered these subjects, we will try to answer your questions about asbestos and health, asbestos handling, and government regulations. After the question and answer period, we will retire for cocktails and lunch where questions and answers will be handled on an individual basis.

Attached, I have given the date, place and schedule for the meeting. To assure adequate facilities, I would appreciate a confirmation of your attendance and names of other people from your company planning to attend.

I hope that you can attend this meeting for it should provide you with valuable information.

Very truly yours,

J. P. McCarthy
