Re: Draft Comments on the ATSDR Tox Profile

In response to my last telefax, most members of the Panel agreed that CMA should prepare basic comments on the ATSDR EDC profile. Attached for your review and comment is the first draft of those comments. As I explained previously, I based these comments on previous comments submitted by the Panel. I realize that the letter does not contain any supporting data, nor does it provide much detail. If Panel members wish to add more issues to the letter, please let me know.

Please make any revisions and return the corrections to my attention (telefax 202-887-1237). In order to make the deadline, I will need your responses by February 12, 1993.

Please call me if you have any questions or concerns.

Regards,

Kathleen M. Roberts
Manager
Ethylene Dichloride Panel

Re: Comments on Draft Toxicological Profile
1,2-Dichloroethane (CAS RN 107-06-2),
Docket Control Number ATSDR-59

Dear Ms. Tucker

The Chemical Manufacturers Association Ethylene Dichloride Panel welcomes the opportunity to comment on the October 1992 draft ATSDR Toxicological Profile for 1,2-Dichloroethane (ethylene dichloride, EDC). The Panel, chartered in 1974, represents the producers of EDC and includes the BFGoodrich Company, the Dow Chemical Company, Occidental Chemical Corporation, PPG Industries, Inc., Vista Chemical Company, and Vulcan Chemicals.
