PCB PRODUCT LABELS

B/U
8/24

Mr. G. R. Sido - G4EC

Dear Bob:

We are trying to review again the adequacy of the warning material on the labels which go on drummed quantities of our remaining PCB-containing products. I believe the text for all of these remaining materials is the same. If so, could you send me a sample label of any of the products--perhaps Aroclor 1016.

If there are any differences in the text of the warning contained on drum labels for any of the PCB products, we would like to have a copy of the text of each of the different kinds of warning statements. Your help would be appreciated.
