program, we find that production workers exposed to dust are given X-rays once a year and for all other employees once every two years.

X-rays are sent to Dr. Trido at Saranac Lab for interpretation. There has been no reported cases of either silicosis or asbestosis at this plant. J.M. Robinson.

MS. TOSTANOSKI: Thank you.

MR. IGNATOWSKI: You are welcome.

The next is Exhibit Number OI-1065, Saranac symposium, 6th, Saranac Lake, New York, 1947.

It is edited by Dr. Arthur J. Vorwald. Pneumoconiosis. Leroy U. Gardner, Memorial Volume.

On page 595, it indicates Mr. Willis G. Hazard of Owens-Illinois Glass Company, Toledo, Ohio, as one of the participants in the 6th Saranac symposium.

THE COURT: It will be admitted into evidence.

(Whereupon, Plaintiffs' Exhibit Number OI-1065 was received into evidence.)
