I have just reviewed a full color videotape rerun of a 30-minute program on PCBs which appeared on WNBC, New York, on Jan. 31.

The program, titled "New York Illustrated," was narrated by Edwin Newman and is a "very heavy" mostly factual indictment of PCBs, G.E., Imports and the EPA in that order, with a couple of harmless references to Monsanto, thrown in!

The videotape is available for viewing on equipment housed in the Corporate Public Relations Department in A3NC. You can arrange for a screening simply by calling Mike Blatz at 4-2582.

I recommend that you see this if at all possible and suggest that viewings be scheduled in groups of no more than four due to the size of the accommodations.
