Dear Mr. Welsh:

Enclosed is a copy of the analytical results for water samples from the Rome Wastewater Treatment Plant and General Electric Company collected during the September 21-31, 1976 PCB study. PCB analyses have not yet been completed for the solids samples. The results will be forwarded to you as soon as completed.

A report of investigation of the Rome Wastewater Treatment Plant is currently being finalized and will be forwarded to you early next week. If you have any questions, please contact Michael Carter of my staff.

Sincerely yours,

Billy H. Finger/bm
