Dear Sirs:

This refers to our license agreement dated October 17, 1950, under United States Clark patents 1,944,730, 2,169,372, and 2,468,544.

Effective as of January 1, 1953, General Electric Company hereby irrevocably waives the reporting of sales for use in the United States or the payment of royalties (excepting minimum royalties) on such sales or both with respect to the particular licensed liquid dielectric material whose composition is 45% by weight chlorinated diphenyl and 55% by weight tri tetra blend plus .125% by weight tin tetraphenyl, otherwise known to the trade as General Electric 1470 Pyranol askarel.

This letter is written in duplicate. If it meets with your approval, please indicate and date your acceptance at the place provided below and return one copy.

Very truly yours,

GENERAL ELECTRIC COMPANY
