CONTENTS OF VOLUME XIV

JANUARY, 1932. NUMBER 1

PAGE

HYDROCYANIC ACID GAS POISONING BY ABSORPTION THROUGH THE SKIN. Philip Drinker, Department of Industrial Hygiene, Harvard School of Public Health, Boston, Mass. 1

THE NORMAL SENSITIVITY OF THE CARDIO-INHIBITORY CENTER. Walter R. Miles, Ph.D., Stanford University, California 3

STUDIES ON EXPERIMENTAL PNEUMONOKONIOSIS. VIII. INHALATION OF QUARTZ DUST. Leroy U. Gardner, M.D. From the Saranac Laboratory for the Study of Tuberculosis, the Edward L. Trudeau Foundation, Saranac Lake, New York 18

BOOK NOTICES 38

FEBRUARY, 1932. NUMBER 2

THE BALTIMORE GAS APPLIANCE ORDINANCE AND ITS RELATION TO PUBLIC HEALTH. Wilmer H. Schulze, Chief, Division of Chemical Technology, City of Baltimore Health Department 41

A PRESSURE CHAMBER INSTALLATION FOR STUDYING THE PHYSIOLOGIC EFFECTS OF PRESSURES VARYING FROM SIX TO SIXTY POUNDS PER SQUARE INCH ABSOLUTE. R. M. Thompson, C. P. Yaglou, and A. B. Van Woert. From the Departments of Physiology and Industrial Hygiene, Harvard School of Public Health, Boston, Mass. 57

CONTROL OF THE SILICOSIS HAZARD IN THE HARD ROCK INDUSTRIES. II. AN INVESTIGATION OF THE KELLEY DUST TRAP FOR USE WITH PNEUMATIC ROCK DRILLS OF THE "JACKHAMMER" TYPE. Theodore Hatch, Instructor in Sanitary Engineering, Harvard University; George S. Kelley, Mechanical Engineer, George J. Atwell Foundation Corporation, New York City; and J. William Fehnel, Chief Chemist, Laboratory of Industrial Hygiene, Metropolitan Life Insurance Company, New York City 69

WILLIAM FRANCIS DEARDEN, M.R.C.S. (Eng.) L.R.C.P. (Lond.) D.P.H. (Vict.) J.P. 80

MARCH, 1932. NUMBER 3

MODERN PROBLEMS IN INDUSTRIAL MEDICINE. Leonard P. Lockhart, M.D., Medical Officer, Messrs. Boots Pure Drug Co., Ltd., Nottingham, England 81

RECENT RESEARCH INTO THE CAUSES OF INDUSTRIAL ACCIDENTS. Eric Farmer, M.A., Investigator for the Industrial Health Research Board, London 84

10,374

ST0850658

PAGE

FACTORS IN THE PRODUCTION OF NERVOUS LESIONS FOLLOWING ELECTRIC SHOCKS. Orthello R. Langworthy. From the Sub-Department of Neurology, The Johns Hopkins University, Baltimore, Md..... 87

THE MEASUREMENT OF RADIANT HEAT IN RELATION TO HUMAN COMFORT. H. M. Vernon, M.D., Investigator for the Industrial Health Research Board, London..... 95

BOOK NOTICES..... 112

APRIL, 1932. NUMBER 4

CONTRIBUTION TO THE METHODS USED FOR RAPID DETERMINATION OF DUST IN AIR. Carl Naeslund, M.D. From the Institute of Hygiene, University of Upsala..... 113

PROCEDURE FOR ESTABLISHING OPTIMUM AIR CONDITIONS FOR LIGHT AND HEAVY WORK. G. D. Arnaoutow and E. W. Weller. From the Laboratory of Physiology of the State Institute of Labor Protection, Moscow..... 117

CADMIUM POISONING: I. THE HISTORY OF CADMIUM POISONING AND USES OF CADMIUM. Leon Prodan, M.D., M.P.H., Dr.P.H. From the Departments of Physiology and Industrial Hygiene, Harvard School of Public Health, Boston, Mass..... 132

BOOK NOTICES..... 156

MAY, 1932. NUMBER 5

ON THE EFFECTS OF PROLONGED EXPOSURE TO SULPHUR DIOXIDE. Robert A. Kehoe, M.D., Willard F. Machle, M.D., Karl Kitzmiller, M.D., and T. J. LeBlanc, Sc.D..... 159

CADMIUM POISONING: II. EXPERIMENTAL CADMIUM POISONING. Leon Prodan, M.D., M.P.H., Dr.P.H. From the Departments of Physiology and Industrial Hygiene, Harvard School of Public Health, Boston, Mass..... 174

THE REACTIONS OF THE ORGANISM TO REPEATED ELECTRIC SHOCKS. Orthello R. Langworthy and William B. Kouwenhoven. The Johns Hopkins University, Baltimore, Md..... 197

BOOK NOTICES..... 205

JUNE, 1932. NUMBER 6

RESULTS OF SUPPLEMENTING THE DIETARY OF SUBSTANDARD WORKERS WITH COD LIVER OIL AND MILK. Arthur D. Holmes, Ph.D., and Madeleine G. Pigott, B.S., Research Laboratories, The E. L. Patch Company, Boston, Mass.; and Wm. Alfred Sawyer, M.D., and Laura Comstock, M.S., Medical Department, Eastman Kodak Company, Rochester, N. Y..... 207

THE TOXICOLOGY OF THE CARBONYLS. Arthur J. Amor, M.D. (Lond.), B.Sc. (Wales), Medical Officer, The Mond Nickel Company, Ltd..... 216

ST0850659

PAGE

ERYSIPELOID: BACILLUS OF SWINE ERYSIPELAS INFECTION—A DISEASE OF INDUSTRY. Joseph V. Klauder, M.D., Professor of Dermatology and Syphilology, Woman's Medical College of Pennsylvania, Philadelphia, Pa. 222
SIR THOMAS MORISON LEGGE, C.B.E., M.D., D.P.H. 235
BOOK NOTICES 237

SEPTEMBER, 1932. NUMBER 7

THE OCCURRENCE OF BOILS AMONG MEN WORKING IN COAL MINES. S. W. Fisher, B.A., M.D., H. M. Medical Inspector of Mines 243
CONTROL OF THE SILICOSIS HAZARD IN THE HARD ROCK INDUSTRIES. III. DESIGN AND OPERATION OF A DUST CONTROL SYSTEM FOR USE WITH PNEUMATIC ROCK DRILLS ON OPEN EXCAVATION. Theodore Hatch, Instructor in Industrial Sanitation, Harvard Engineering School; Henry Warren, Assistant in Industrial Hygiene, Harvard School of Public Health; and George S. Kelley, Mechanical Engineer, George J. Atwell Foundation Corporation, New York City 246
CUTANEOUS PAPILLOMAS AMONG PATENT FUEL WORKERS IN RELATION TO MALIGNANT DISEASE. C. C. R. Downing, M.A., M.D. (Cantab.), M.R.C.S. (Eng.) 255
BOOK NOTICES 280

OCTOBER, 1932. NUMBER 8

CHRONIC POISONING BY OXALIC ACID. WITH A REPORT OF A CASE AND RESULTS OF A STUDY CONCERNING THE VOLATILIZATION OF THIS ACID FROM AQUEOUS SOLUTION. Charles D. Howard, Director, Division of Chemistry and Sanitation, State Board of Health, Concord, New Hampshire 283
ASPHYXIA FROM AN UNEXPECTED CAUSE. E. L. Middleton, M.D., D.P.H. H. M. Medical Inspector of Factories, London 291
CARBON MONOXIDE SURVEY IN LIBERTY TUBES, PITTSBURGH. REPORT TO THE CHAIRMAN AND MEMBERS OF THE BOARD OF COMMISSIONERS OF ALLEGHENY COUNTY FROM THE CARBON MONOXIDE SURVEY COMMITTEE, JUNE 4TH, 1932. PITTSBURGH, PENNSYLVANIA. C. B. Maits, M.D., Chairman 295
MODIFIED FORM OF THE GREENBURG-SMITH IMPINGER FOR FIELD USE WITH A STUDY OF ITS OPERATING CHARACTERISTICS. Theodore Hatch, Henry Warren, and Philip Drinker. From the Department of Industrial Hygiene, Harvard School of Public Health, Boston, Mass. 301

SUBJECT INDEX TO ARTICLES. VOLUME XIV

This is a subject index to all the reading matter in the JOURNAL OF INDUSTRIAL HYGIENE, and one should, therefore, look for the subject word, with the following exception: "Book Notices" are indexed under this title on page 377. The name of the author follows the subject entry in parenthesis.

For author index, see page 378.

PAGE

AIR conditions, procedure for establishing optimum, for light and heavy work (Arnaoutow and Weller) 117
ACID, OXALIC, chronic poisoning by (Howard) 283
volatilization from aqueous solution (Howard) 283
ASPHYXIA from an unexpected cause (Middleton) 291

BACILLUS of swine erysipelas infection, a disease of industry. Erysipeloid (Klauder) 222
BALTIMORE gas appliance ordinance and its relation to public health (Schulze) 41
BOILS, the occurrence of, among men working in coal mines (Fisher) 243

CADMIUM, history of poisoning and uses of (Prodan) 132
poisoning, experimental cadmium poisoning (Prodan) 174
CARBON MONOXIDE survey in the Liberty Tubes, Pittsburgh (Waits) 295
CARBONYLS, the toxicology of 216
CARDIO-INHIBITORY center, normal sensitivity of (Miles) 3
COD liver oil and milk, results of supplementing the dietary of substandard workers with (Holmes, Pigott, Sawyer, and Comstock) 207
COMFORT, human, measurement of radiant heat in relation to (Vernon) .. 95

DEARDEN, William Francis. Death notice 80
DIETARY of substandard workers, results in supplementing the, of substandard workers with cod liver oil and milk (Holmes, Pigott, Sawyer, and Comstock) 207
DUST control, *see* silicosis hazard 69
design and operation of a system for the control of use with pneumatic rock drills on open excavation (Hatch, Warren and Kelley) 246
rapid determination in air (Naeslund) 113

ELECTRIC precipitators, acid formation in (Drinker, Hazard, and Ishikawa) 364
shocks, factors in the production of nervous lesions following (Langworthy) 87
shocks, the reaction of the organism to repeated (Langworthy and Kouwenhoven) 197
ERYSIPELAS infection, bacillus of swine (Klauder) 222

HEAT radiant, measurement of in relation to human comfort (Vernon) ... 95
HYDROCYANIC acid gas poisoning by absorption through the skin (P. Drinker) 1

IMPINGER, modified form for field use with a study of its operating characteristics (Hatch, Warren and Drinker) 301
INDUSTRIAL accidents, recent research into the causes of (Farmer) 84
medicine, modern problems in (Lackhardt) 81

"JACKHAMER" *see* silicosis hazard.

KELLEY dust trap. *See* silicosis hazard.

LEGGE, Sir Thomas Morison, C. B. E., M.D., D.P.H., death notice 235
LESIONS, nervous, following electric shocks (Langworthy) 87
LIBERTY TUBES, carbon monoxide survey in (Waits) 295

MILK, supplementing dietary of substandard workers with cod liver oil and (Holmes, Pigott, Sawyer, and Comstock) 207
MINES, COAL, the occurrence of boils among men working in (Fisher) 243

NITROGEN fixation, in electric precipitators (Drinker, Hazard, and Ishikawa) 364
NORMAL sensitivity of the cardio-inhibitory center (Miles) 3

ST0850662

PAGE

PAPILLOMAS, cutaneous, among patent fuel workers in relation to malignant disease (Downing) 255
PATENT FUEL WORKERS, cutaneous papillomas among, in relation to malignant disease (Downing) . . . 255
PNEUMONOKONIOSIS, experimental. Inhalation of quartz dust (Gardner) 18
PRECIPITATORS, electric, acid formation in (Drinker, Hazard, and Ishikawa) 364
PRESSURE chamber installation for studying the physiologic effects of pressures varying from six to sixty pounds per square inch absolute (Thompson, Yaglou, and Van Woert) 57

QUARTZ dust, *see* Pneumonokoniosis . . 18

ROCK DRILLS, design and operation of a dust control system for use with, an open excavation (Hatch, Warren, and Kelley) 246

SILICOSIS, design and operation of a system for control of, for use with pneumatic rock drills (Hatch, Warren, and Kelley) 246
hazard control of, in the hard rock industries. II. An investigation of the Kelley dust trap for use with pneumatic rock drills of the "Jackhamer" type (Hatch, Kelley, and Fehnel) 69
SKIN, hydrocyanic acid has poisoning by absorption through (P. Drinker . 1
SULPHUR dioxide, on the effects of prolonged exposure to (Kehoe, Machle, Kitzmiller, and LeBlanc) 159
