intracompany memo

to	Mr. K. W. McCaw	location	Portland
from	J. R. Hurd	location	Portland
subject	Caution Labels for Joint System Products	date	March 29, 1974

COPY

Per our conversation yesterday, I have been in touch with Matt Fink and have given him instructions to submit to you all the information necessary to give proper evaluation of our joint systems products so that you may determine proper wording, proper type size, proper color, etc., for caution labels for hazardous materials. Matt will submit this information to you Monday or Tuesday of next week. When you have established proper labeling for these products, please advise Chuck Martin in Advertising.
