SUBJECT AROCLOR LABELS

REFERENCE DSC/ls

TO : K Fletcher, London

On advise from the legal department, St. Louis have modified their Aroclor label by the addition of the following statement:-

"This product contains polychlorinated biphenyls, which some studies have shown may be an environmental contaminant. Extreme care should be taken to prevent any entry into the environment through spills, leakage, use, disposal, vaporization, or otherwise".

I propose we should do likewise in Europe. Do you approve of the above statement or can you suggest any modification that might be required?

Attached is a copy of our typical Aroclor label.

DS Cameron

OK.
