WO:JU:

11th March, 60.

The Director,
Department of Mines,
Quebec,
QUEBEC PROVINCE,
CANADA.

Dear Sir,

It would be very much appreciated if you would supply this Department with any reports, statistics or other literature your Department may have prepared on the subject of asbestosis and its effect on your blue/white asbestos mining industry, particularly in respect to the incidence, the severity of disability suffered by mine workers exposed to asbestos dust and any special preventative measures which may have been adopted, please.

Any information you are able to forward will be received with much interest and I thank you in anticipation for your assistance.

Yours faithfully,

(A.H. Telfer).
UNDER SECRETARY FOR MINES.
