Marine White Lead and Marine White Zinc.

(Paste).

Put up in 12½, 25, 50, 100 and 250 lb. kegs.

Marine Lead.....	per lb.	9
" Zinc.....		9½

Marine White Lead and Marine White Zinc are especially prepared for marine use, and are in all respects the best Lead and the best Zinc on the market for that purpose. They will be found to be very white, of good body and very durable. They are more finely ground than other leads and zincs, and consequently will be found to be much more economical to use by reason of their better working and covering qualities and the increased surface they will cover. They are also especially prepared to resist the destructive action of water.
