ETHYL CORPORATION

INTER-OFFICE

TO: Maintenance Supervision

FROM: J. R. Boesch

SUBJECT: Compliance to Asbestos Exposure DATE: April 29, 1977

Compliance to Occupational Safety and Health Standard effective July 1, 1976, will be maintained by using exhaust ventilation and dust collection equipment.

This equipment has been installed at Central Shops and is operational.

To maintain compliance, there will be no further cutting of asbestos material with power or hand tools outside of this area on the Baton Rouge Plant.
