

GEO. P. Reintjes CO., INC.

(Triplicate) September 20, 1962

Wheeling Steel Corporation
Purchasing Division
Wheeling, West Virginia

Attention: Mr. E. E. Meagle, Senior Buyer

Subject: No. 3 Open Hearth Furnace
End Wall Nosings

Gentlemen:

We will be pleased to furnish various refractory shapes, air seal plates, castings, pipe and pipe hanger bolts required to install the Reintjes suspended nosings, thrust belts and support belts in the end wall areas of No. 3 Open Hearth Furnace at your Steubenville Works.

Shipment of all material required could be made within five days after receipt of your purchase order.

This delivery is based on furnishing the HC-12 Tile in chemically bonded material and the balance in Chromex B burned material, all from Harbison-Walker Refractories Company.

Our price for the material described above for both ends of your No. 3 Open Hearth Furnace is Two Thousand Seven Hundred Ninety-five ($2,795.00) Dollars f.o.b. point of shipment, with freight allowed to Steubenville, Ohio.

We are enclosing three copies of our Drawing D-3640-O-1 showing the end wall construction as it is now installed in your No. 4 Furnace, and No. 3 Furnace would be identical.

We appreciate your continued interest in our constructions and will hope to hear favorably from you on this project in the near future.

Terms: Net thirty days.

Very truly yours

GEO. P. REINTJES CO., INC.
