Monsanto

SPECIALTY CHEMICALS DIVISION

MONSANTO INDUSTRIAL CHEMICALS CO.
800 N. Lindbergh Boulevard
St. Louis, Missouri 63166
Phone: (314) 694-1000

Dear Customer:

Monsanto will stop accepting polychlorinated biphenyl ("PCB") waste returns effective August 31, 1977. We now have substantial volumes of PCB waste on hand which must be incinerated along with our production unit's residue before the incinerator is decontaminated and shutdown later this year. For this reason we are not able to accept any significant volumes between now and August 31st.

The American National Standards Institute's publication ANSI C107.1 -1974 lists the following firms as having incineration facilities capable of handling PCB's.

Chem-Trol Pollution Services, Inc.
P.O. Box 200
1550 Balmer Road
Model City, New York 14107
Phone: 716-754-8231

Rollins Environmental Services, Inc.
P.O. Box 2349
Wilmington, Delaware 19899
Phone: 302-658-8541

It is, of course, your responsibility to determine the adequacy of the incineration facility for the disposal of PCB waste and its compliance with applicable laws and regulations.

Sincerely,

James A. Alley
