I urged Terry Davies of CEQ to try harder to unearth documents on the importation of PCB. He took me seriously and later informed me that CEQ would take a firmer step. Specifically, Russell Train will write to Jim Lynn, Undersecretary of Commerce, asking him to strongly request import information from the appropriate agencies. Terry expects this request to a higher level to produce results. He is still in a quandary about what to do with the information when he gets it. I urged him to see that our government approaches the governments overseas directly to persuade them to adopt a responsible policy. I will follow up with Terry and also with Ed Burger to see that something gets done.

K. W. Easley
