"Cheap" house paint is a luxury

for the rich man only

If you have loads of money . . . if you can afford to buy twice as many gallons . . . if you can pay the cost of burning or scraping off the old paint every two years or so—and the added cost of frequent repainting . . . then you are rich enough to use a "cheap," low price house paint.

But if you want to make every dollar count—to get value for your money—then you'd better buy the best house paint money can buy—SWP. It costs no more in the beginning—and much less in the end.

Come in and let us tell you the truth about the exorbitant cost of "cheap" paint.

GUARANTEED!

SWP is *guaranteed* to look better, last longer, cost less per job and less per year than any house paint on the market.
