REDACTED BY COUNSEL

Asbestos Dust Exposures
November 1972

	Asbestos Concentrati. fibers (> 5μ)/cc
Threshold Limit Value	5.0
1976 Proposed Threshold Limit Value	2.0

Location

Breathing zone sample, garage mechanic brushing dust out of rear brake drums — 0.2

Breathing zone sample, garage mechanic blowing dust out of rear brake drums — 0.0

Samples were obtained on cellulose ester, Type AA membrane filters, and analyzed by phase-contrast microscopy.
