CENTRAL CRAFTS

CONTROL OF ASBESTOS DUST

File - Asbestos

1. Approved respirator shall be worn (M.S.A. Comfo II with GMA cartridges and Type "F" filters) (3M #8710 disposable).

2. Disposable type coveralls, head and foot covers are to be worn over Plant work clothing.

3. Dampen materials prior to and during removal.

4. Remove hangers, supports, and outer covering carefully. Do not let material drop and create dust.

5. Avoid sawing where possible. Knife cutting is preferred.

6. Avoid dry sweeping, keep products in wet state. When possible use approved vacuum cleaner.

7. Designate work area as "Limited Access" Call Central Crafts I.H.S. coordinator for contact code number. Rope off area, display proper asbestos caution sign, place sign in/out log sheet on job site, record time exposure in limited access area. Return sign in/out log sheets to Central Crafts I.H.S. Coordinator.

8. Maintain good housekeeping.

9. Place waste materials and disposable clothing in impermeable bags.

10. Label or tag impermeable bags with warning tags, transport to Plant disposable area.

THERMAL INSULATION
STANDARD ENGINEERING SPECIFICATION

ISSUED	JULY 1978	SN 1 M
THIS PAGE REVISED	SEPT 1979	Page 1 of 14
STANDARD REAFFIRMED	SEPT 1979	

1. SCOPE

This specification contains two alphabetical listings. One is by vendors, brand name, and Du Pont code; the other is by brand name, with vendor and Du Pont code.

2. GENERAL

2.1 The materials listed have proven satisfactory in field tests and proof has been furnished by the manufacturers that their products meet the specifications of the code under which they are listed. These manufacturers' materials are acceptable under other vendors' labels upon certification as to their identity.

2.2 For reference by vendor, see Table 1.

2.3 For reference by brand name, see Table 2.

2.4 For detailed description, specifications, and limitations of a specific material, refer to the respective Du Pont code in the SN-M section.

2.5 Common materials are listed generically under the vendor heading "Applicator or Distributor."

THERMAL INSULATION
STANDARD ENGINEERING SPECIFICATION

ISSUED	JULY 1978	SN 1 M
THIS PAGE REVISED	SEPT 1979	
STANDARD REAFFIRMED	SEPT 1979	Page 1 of 14

1. SCOPE

This specification contains two alphabetical listings. One is by vendors, brand name, and Du Pont code; the other is by brand name, with vendor and Du Pont code.

2. GENERAL

2.1 The materials listed have proven satisfactory in field tests and proof has been furnished by the manufacturers that their products meet the specifications of the code under which they are listed. These manufacturers' materials are acceptable under other vendors' labels upon certification as to their identity.

2.2 For reference by vendor, see Table 1.

2.3 For reference by brand name, see Table 2.

2.4 For detailed description, specifications, and limitations of a specific material, refer to the respective Du Pont code in the SN-M section.

2.5 Common materials are listed generically under the vendor heading "Applicator or Distributor."
