RE: CORPORATE INDUSTRIAL HYGIENE STAFF ASSIGNMENTS

Attached is a new list of plant liaison assignments for the Corporate Industrial Hygiene Staff. A new list of specialty topic assignments is also attached.

These changes take into account the addition to our staff last year of Betty L. Siceloff, and the departure of Mike Vaudreuil. A few other changes in assignments are also involved to create balance within the staff.

Insofar as possible, we try to keep changes in plant assignments to a minimum believing that continuity of relationships is an important element in our effort to provide ongoing Industrial Hygiene liaison and support to the Alcoa plants and subsidiary locations. When it is necessary to make changes, we appreciate your acceptance and understanding.

E. E. RUMBERGER
