MEMORANDUM #126

February 12, 1948

TO: All Members of the Air Hygiene Committee

SUBJECT: Air Hygiene Committee's Recommended Minimum Program

1. At the Institute meeting held on December 5, 1947, the Chairman of the Air Hygiene Committee presented and outlined the Industrial Hygiene Foundation's suggested program for reducing dust and improving diagnostic procedure. (The Air Hygiene Committee's recommendation as regards this program is set forth in the Minutes of the Air Hygiene Committee Meeting, held November 19, 1947.)

2. Committee members and company representatives agreed to study this suggested program so that a final decision can be reached at the next Institute meeting in Chicago.

3. Any members of the Air Hygiene Committee who feel it advisable that the committee meet, before the General Meeting, to clarify any questions regarding the program or its purpose, should advise the Manager's office so that an Air Hygiene Committee Meeting can be arranged.
