"75" EXTERIOR EGGSHELL HOUSE PAINT

White and Colors — Low-lustre white and standard colors formulated in a "breather-type film" for longer life and better color retention in all climates.

Base No. 1 & No. 2 — Special white bases to be tinted with Tone-All Universal Tinting Colors according to O'Brien Symphonic Color System formulas. May be used for both body and trim.

Trim and Tinting White — Non-chalking finish for body or trim. May be tinted.

Preparation

Surface must be clean and dry. Remove chalk and loose paint. Repair flashings and provide adequate ventilation for trapped moisture. Sand and dull glossy areas under eaves and protected areas.

Priming

Spot prime previous paint as needed. Prime new wood, new wood shingles, or previous paint in poor condition, with "75" House Paint Priming White. Tint primer toward topcoat with Tone-All or Oil Colors. Prime new or bare metal with Flexico Metal Primer. Etch galvanized metal before priming.

Application

Stir well. Apply one or more coats as needed at temperature not less than 60° F. (Apply only one coat of "75" Exterior Eggshell over previously painted wood shingles and reduce with one pint of linseed oil per gallon.) "75" Exterior Eggshell may be thinned by adding Exterior Eggshell Thinner sparingly. Allow 48 hours good drying weather between coats. Covers up to 500 sq. ft. per gallon.

75 EGGSHELL TRIM AND TINTING WHITE

Pigment	54.66%
Titanium Dioxide	42.86%
Zinc Oxide	21.43%
Silicates	35.71%
	100.00%
Vehicle	45.34%
