Mr. Willis Clarke
Monsanto Corporation
800 North Lindberg Blvd.
St. Louis, Mo.

Reference: Aroclor 6050

Dear Mr. Clarke:

Jan Smoke of your New York office suggested I write you on our need for an additional 10,000 pounds of aroclor above our allocated figure of 15,000 pounds.

This material is used in a product sold to Boeing under contract F04-701-70C-0180 which has a DX-A2 rating. This additional 10,000 pounds will enable us to complete the quantity ordered under the contract.

Shipments against this contract were made prior to your announcement on the discontinuation of aroclors.

Your help in this matter is certainly appreciated.

Very truly yours,

ESSEX CHEMICAL CORPORATION
