NEWS FROM DU PONT
WONDER WORLD OF CHEMISTRY

SELF-CLEANING HOUSE PAINT STILL AVAILABLE

Du Pont House Paint Keeps White Houses White, Gives Long-Lasting Protection

For home owners who want *white* white houses, Du Pont Self-Cleaning House Paint is still available.

Starts White—Stays White

Du Pont House Paint is so brilliantly white because it's made with titanium dioxide, the pigment that's even whiter than snow! This paint *stays* white, too, because—

It's Self-Cleaning

Du Pont House Paint is so formulated that, as time goes by, a microscopically fine white powder forms on the surface. Heavy rains wash this powder away, taking dust and dirt with it, and leaving the surface clean and white again. (Excessive accumulations of dirt, particularly in sooty industrial communities, or in heavily shaded locations, may delay or interfere with this process.) Because this "self-cleaning" is gradual, the wearing qualities of the paint film are not abnormally affected.

Guards the Surface

Du Pont House Paint forms a beautiful, durable coating that protects against rust, rot and decay. Also available in popular tints.

Du Pont House Paint costs no more than other good paints. Call in a reliable painting contractor for your painting jobs. He'll be glad to use Du Pont House Paint.

When you paint your house, use the paint that gives it both lasting beauty and lasting protection.
