Mr. Ralph Huntley
Riverbank Acoustical Laboratories
Geneva, Illinois.

Dear Mr. Huntley:

Since my letter of August 29, we have been in touch with the E-Z-On Corporation of Chicago and they have volunteered to apply the acoustical plaster to the panels and then truck them to Geneva. We have accepted their offer and it is hoped that the panels will be prepared very shortly and after drying, will be brought to you, possibly within two or three weeks.

In order for the panels to be completely dry, possibly the panels should be cured for two or three weeks after plastering takes place.

The panels will be prepared in accordance with your suggestion for which we thank you, and trust that they will reach you in good condition.

A purchase order in the amount of $120.00 will be sent you under separate cover.

Very truly yours,

BESTWALL GYPSUM COMPANY

C. G. Shuttleworth,
Chief Chemist.
