Dear Mr. Raible:

During the past week or so I have been discussing the composition of Santovac 2 with Jack O'Connell and David Swendson. The purpose of this letter is to confirm that Santovac 2 is the same as Aroclor 1254.

Because of questions raised by certain ecology studies Monsanto has decided to carefully control the uses and disposal of the polychlorinated biphenyls. You will note on the Santovac 2 label statements to this effect.

I hope this letter supplies the information you need. If not, please let me know.

Very truly yours,

R. E. Hatton
Technical Manager
Hydraulics & Lubricants
