MR. McGOWAN: Again, Your Honor, just to expedite things.

For the record, Your Honor, I am handing him the Johns Hopkins August 3rd, 1981 summary.

(Whereupon, document tendered to witness.)

BY MR. McGOWAN:

Q What does it indicate here about the loss of 20 pounds, would you indicate to the jury?

A He has lost approximately 20 pounds over the last year, other than the ascites, the patient feels quite good, and he is tapped.

Q So the ascites is that fluid?

A That is right.

Q Other than that, he was doing okay. Feeling quite well. Is that what it says?

A That is what he says.

Q That is what the doctors taking care of him thought at the time?

A That is what it says.

Q The word distension, Doctor, that means sticking out, isn't it?
