Dr. McIver Woody
Esso Standard Oil Company
15 West 51st Street
New York, New York

Dear Dr. Woody:

During a visit yesterday to the Illinois State Division of Industrial Hygiene, Mr. Kenneth Morse, Director, told me that his Division would soon start an environmental cancer study in the state and begin work around Alton, Illinois. He indicated that this study would include the oil industry. The study is to be done at the request of U.S. Public Health Service and in cooperation with that agency. Representatives of the U.S.P.H.S. conferred with Mr. Morse about two weeks ago to make plans for this study.

Yours very truly,

Allan E. Dooley
