Hercules Road & Route 48
Wilmington, Delaware '9899

Dear Customer:

We wish to inform you that we will not offer Therminol® 77 heat transfer fluid after June 30, 1972. Therminol 77 was manufactured from a by-product which is no longer available to us. Accordingly, we cannot embark on another production run and expect that our inventory will be depleted by June 30, 1972.

For your convenience, we list the purchasing pattern of Therminol 77 by your company over the past five years.

1968	
1969	350 lbs.
1970	
1971	
1972 YTD	

For your information, Monsanto's heat transfer fluid line now consists of:

	Suggested Maximum Operating Temperature
Therminol 55	575°F
Therminol 66	650
Therminol 88	800

If we can be of assistance to you, please call our heat transfer specialists at (314) 694-2514.

Yours sincerely,

Cumming Paton
Product Manager, Fluids
