JAPALAC Standard Colors are ready for use. Dramatone Colors are obtained by adding Dramatone Multi-Purpose Tinting Colors to a gallon size container of Pastel Tint Base 1218, Intermediate Tint Base 1287, or Deep Tint Base 1280 according to the formulas shown. Tint Bases in these formulas are short filled in both gallon size and quart size containers to allow for addition of colorants. The formulas given here are for tinting gallon size containers.

BLUE TURQUOISE 1269
ALSO IN SPRAY CANS
This ready-to-use color to be discontinued when present stocks are depleted.

The secret in the beauty of these luxurious JAPALAC colors is a scientifically improved, new alkyd resin formulation. JAPALAC offers you ease of application never before equalled, plus a baked-enamel appearance of deep, rich gloss. JAPALAC Standard Colors, Dramatone Tinted Colors and JAPALAC Spray Enamel Colors are now formulated without lead pigments.
