The reformulation of Pydraul products has not been an easy task and the efforts of many people were needed. One of the main jobs to be accomplished was selling off all the inventory of the PCT Pydrauls while maintaining the necessary inventories of the new "C" and "E" series Pydrauls.

We wish to thank you and all of your people for the outstanding job you have done during the past six months. We have sold every drum of the old Pydrauls (with customers constantly asking for new Pydrauls) and have had no serious customer problems due to products not being in the right place at the right time. This has been a seemingly never-ending job which required persistence on everyone's part and constant communication and cooperation between groups.

Many times we do our part of a job and feel (quite naturally) it is not our fault if the whole job doesn't get done. I compliment all of you for looking beyond your own responsibilities and doing more than was required because this is the kind of effort necessary to get the whole job done. A sincere "thank you" for the efforts of everyone involved.

J.H. Davidson
