Dr. William H. Hunt
Monsanto Company
800 N. Lindbergh Blvd.
St. Louis, Missouri 63166

Dear Bill:

I am enclosing the information you requested on the care and housing of birds for the Monsanto Aroclor Chicken Reproduction Studies. Also included are the conditions used for incubation.

Please call if you need additional information.

Sincerely yours,

Rudolph Kodras

Rudolph Kodras, Ph.D., D.V.M.
Assistant Laboratory Director

I discussed this procedure with Ken Maddy. He informed me that this procedure was good and that he had no comments. He is satisfied that this research is OK, thus the Aroclor must be the culprit.
