July 31, 1941

Dr. R. A. Kehoe
Kettering Laboratories
University of Cincinnati
Cincinnati, Ohio

Dear Dr. Kehoe:

We observe in the July, 1941 issue of Industrial Medicine that you presented a paper entitled "The Absorption and Excretion of Ingested Lead Under Various Experimental Conditions" at the Twenty-Sixth Annual Meeting of the American Association of Industrial Physicians and Surgeons at Pittsburg on May 7, 1941.

This office is charged with the responsibility for the defense of the [REDACTED] case which arose at our Wood River, Illinois office, the facts concerning which you are apprised fully. We have in our possession most of your former writings on the general subject of lead poisoning, and since there is some possibility the [REDACTED] case will be tried this fall, we would appreciate being furnished with a copy of the above described paper in order that we may prepare ourselves as fully as possible for a discussion of the case with you at a later date in the event it is to be tried.

Yours very truly,

SHELL OIL COMPANY, INCORPORATED
Legal Department
