Dear Page:

The Editor of Archives of Industrial Hygiene and Occupational Medicine advises that definitely they will accept our paper, EXPERIMENTAL STUDIES OF ASBESTOSIS, and that he believes it can be published in its entirety in a single issue within the reasonably near future, that is, not less than 3 months and not more than 5.

Since the manuscript is of considerable length, we are greatly pleased that it will be possible to publish it in a single issue. We had some concern about this matter when we submitted the paper.

As further word comes to us regarding the publication date, we will pass it on to you.

Best wishes, as always,

Sincerely yours,

/s/ Art
