Attached hereto is an article from Chemical & Engineering News on oxo alcohol supply with serious concern expressed relative to the PVC market because of air pollution potentiality. Also attached are comments by Bill Coaker and Martin Farrar.

Because of this concern, I would like to discuss this overall situation with you on Thursday morning (early) in the Washington office. I understand you return from Europe on October 13; hope you had a profitable visit. Please let me know if the nominated date and time are acceptable.

Best personal regards.
