PERLITE STUDY (FESCO PARTICULATE)
YOUR LETTER DATED NOVEMBER 3, 1971

Great!

I would like to get together as soon as practical, realizing, of course, that those involved are in three different locations.

I would like to suggest that you and Doc Davison pick a time the first or second week in January that is suitable for both of you, and Hugh and I will meet you in Denver. If by chance you and Doc Davison would be together in New York sometime, I am sure Hugh and I could arrange to meet you there.

Thanks for your assistance.
