Dear Mr. John:

I am afraid it will not be possible to give you an advance copy of our article on PCBs, as there is no longer time to incorporate further comments before we go to press. We have made extensive use of the answers to the questions which we asked, and the other material you supplied us. I will be happy to give you a copy of the January-February issue, which I expect to appear about February 10, as soon as one is available.

Sincerely yours,

Sheldon Novick
