Ralph Thomas, 19, and Charles Martin, 18, both of Los Angeles were booked at the City Prison yesterday after Captain Thomas Boertkern and Sergeant Cornelius McCarthy had found Thomas in possession of a fountain pen lead gas gun and a lead pipe wrapped in newspaper at Seventh and Mission streets Saturday night. Each was booked as a vagrant. Police said the pair admitted they were about "to start out on a job of holding up some storekeeper."

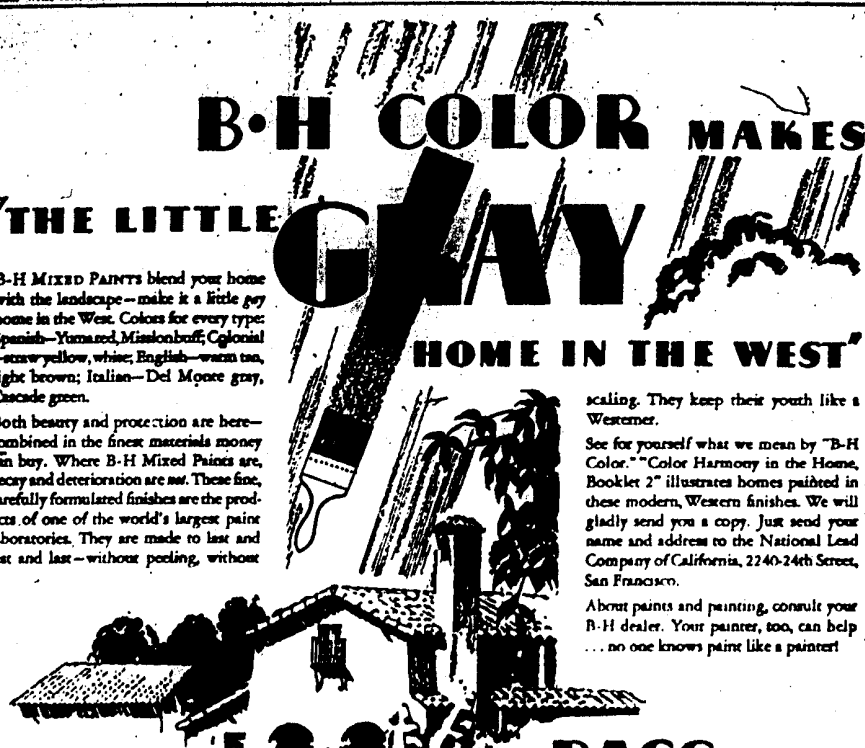
B·H COLOR MAKES "THE LITTLE GAY HOME IN THE WEST"



B-H Mixed Paints blend your home with the landscape—make it a little *gay* home in the West. Colors for every type: Spanish—Yumared, Missionbuff; Colonial—straw yellow, white; English—warm tan, light brown; Italian—Del Monte gray, Cascade green.

Both beauty and protection are here—combined in the finest materials money can buy. Where B-H Mixed Paints are, decay and deterioration are *not*. These fine, carefully formulated finishes are the products of one of the world's largest paint laboratories. They are made to last and last and last—without peeling, without scaling. They keep their youth like a Westerner.

See for yourself what we mean by "B-H Color." "Color Harmony in the Home, Booklet 2" illustrates homes painted in these modern, Western finishes. We will gladly send you a copy. Just send your name and address to the National Lead Company of California, 2240-24th Street, San Francisco.

About paints and painting, consult your B-H dealer. Your painter, too, can help . . . no one knows paint like a painter!

RADIO COLOR CLASS

Would you learn more about painting . . . more about color? Then tune in on our Color Class, conducted every Tuesday morning at 10, over the Pacific Coast Network of N. B. C. Here Mr. A. B. Lawrence, director of our Home Beautiful Department, answers typical decorating problems in a practical, helpful way. Tune in at 10 Tuesdays.

B-H BASS HUETER MIXED PAINTS

Northern Division: Seattle *Central Division:* San Francisco *Southern Division:* Los Angeles

membrane of the eyeball, above the cornea, which is the raised portion of the eye over the iris.

THREE STITCHES TAKEN

Three silk thread stitches were taken through the conjunctiva preliminary to making an opening in the eye.

These stitches enabled the surgeon, after the cataract was extracted, to draw together to their normal position the severed parts of the eye.

An opening was then made into the eyeball. The capsule, which surrounds and holds the lens in place, was opened and the cataract was removed by being gently squeezed first through the pupil and then through the opening above the cornea.

The iris was replaced and readjusted so as to leave a round pupil. The sutures were tied and dressings applied with bandages over them.

It is expected the wound will heal in about a week. The bandages probably will be removed in about ten days.

By virtue of this operation, it is expected the King will, with the aid of glasses, have normal or near to normal vision. The King will, of course, be obliged to wear spectacles with a special glass lens in front of his left eye to take the place of the clouded eye lens which was removed.
