A I can't tell you. Because they apparently thought that this was -- people would stop buying brake linings, I suppose.

(Exhibit DD, 2/16/73 Asbestos Study Committee Meeting Minutes, marked for identification.)

BY MR. PURCELL:

Q I would like to draw your attention to exhibit I have marked DD, which is the February 16, 1973 minutes of the Asbestos Study Committee. On page 2 of your minutes, I would like to draw your attention to this long paragraph, the first couple of sentences.

A (Complies.) All right, yeah, what about it?

Q As of February 1973, is it accurate that in the view of most members of the FMSI Asbestos Study Committee that the five fiber per CC level is exceeded in many areas such as inspection, drilling and grinding where there is no adequate dust collection machinery?

MR. FRIESTEDT: Objection to form.

BY MR. PURCELL:

Q Was that an accurate statement of the view of most members of the committee as of that date?

MR. FRIESTEDT: Objection to form.

A If that is what it says, that's -- that was the
